Adult Education Class

This presentation is designed for parents who would like to be better equipped to prevent child sexual abuse from occurring and for adults working in child serving organizations. This class will assist adults to identify signs and symptoms of child sexual abuse, help them understand the dynamics of sexual abuse particularly the manipulative behavior of perpetrators, and provide them with skills to support open communication with their children to prevent future victimization. Information of Kristi House services and programs will be provided. *2 hours. Free.*

Children & Problematic Sexual Behavior

Both boys and girls might display sexual behavior problems and sexual abuse isn't necessarily a factor. Recognizing and responding to sexual behavior problems is important since research suggests a quarter to half of child sexual abuse involves children acting out on other children. This program will provide participants with an understanding of sexual behavior problems versus normal sexual development, and ways to respond. *2.5 – 3 hours. Free.*

Commercial Sexual Exploitation of Children

This workshop provides a basic overview of commercial sexual exploitation of children (CSEC), the extent of the problem and the impact this type of trauma has on children. It will also include tips for identifying and engaging victims of child sex trafficking, and discussion of services need for healing and reintegration into mainstream society. *2.5 – 3 hours. Free.*
RSVP to MCRodriguez@kristihouse.org.

Stewards of Children

This nationally recognized, best practice program uses videos, workbook activities and discussion to engage and educate about child sexual abuse and how to keep children safe. College students, working professionals, volunteers at child-serving organizations and other staff at agencies and community-based organizations learn that child sexual abuse knows no socio-economic, cultural or racial boundaries. Participants will learn how to develop practices to prevent, recognize and react responsibly to child sexual abuse. *2.5 – 3 hours. Free.*

Children and Traumatic Stress

Child traumatic stress refers to the physical and emotional responses of a child to events that threaten the life of the child or of someone critically important to the child. Social workers, teachers, counselors and others that plan to work with children in other ways are invited to participate in this informative, program and learn what the impact is to a child's well-being. *2.5 – 3 hours. Free.*

LGBTQI: Working with Victims of Sex Trafficking

This training, led by Kristi House partner organization, Survivors Pathway, presents a unique approach to understanding the challenges and barriers experienced by the LGBTQI individuals, especially within the contest of violence, victimization, trafficking, and access to justice. The complexities of gender identity and sexual orientation are addressed. Trainees will gain a broader understanding and learn tools to provide sensitive services to these communities. *2.5 – 3 hours. Free.*
RSVP to info@survivorspathway.org.

Schedule 2018
